

FLAME RETARDANTS: INTEGRAL TO FIRE SAFETY

The European Flame Retardants Association (EFRA) brings together companies that manufacture or use flame retardants in their products and includes large global companies and specialist SMEs. EFRA's objectives are to promote fire safety, to coordinate studies and research relating to flame retardant chemicals, and to represent the industry. EFRA is a sector group of Cefic, the European Chemical Industry Council.

For more information on EFRA, how to become a member or to sign up to our various newsletters and alerts, please visit our website: www.flameretardants.eu
